RADICAL CURE

For CATARRH.

A PURKLY VEGETABLE DISTILLATION EN-TIRELY UNLIKE ALL OTHER REMEDIES.

In the preparation of this remarkable remedy every herb, plant, and bark is subjected to distillation, whereby the essential medical principle is obtained in vapor, condensed and bottled. What remains in the still is lnert, valueless, and totally unfit for use in all organism so delicate as the nasal passages. Yet all snuffs are insoluble compounds of woody fibre; all tinctures, saturated solutions-

SANFORD'S RADICAL CURE Is a local and constitutional remedy, and is applied to the nasal passages by insuffiation, thus allaying inflammation and pain and at once correcting cleansing, and puryling secretions. Internally administered, it acts upon the organs of circulation, Reeps the skip moist, and neutralizes the acid poison that has found its way into the stomach and thence into the blood. Thus a cure progresses in both directions, and it does not seem possible for human ingenuity to devise a more rational treatment.

SURPRISING CURE

SURPRISING CURE.

GENTLEMEN:—About twelve years ago, while travelling with Father Kemp's Old Folks Concert Troupe as a tenor singer. I took a severe cold and was laid up at Newark, N. J. This cold brought on a severe attack of Catarrh, which I battled with every known remedy for ion weeks without avail, and was finally obliged to give up a most desirable position and return home, unable to sing a note. For three years afterwards I was mable to sing at all. The first attack of Catarrh had left my nasal organs and threat so sensitive that the slightest cold would bring one a resh attack leaving me prostrated, in this way I continued to suffer. The last attack the severest I ever had, was terrible. I suffered the most exeruciating pain in my head, was so hoarse as to be scarcely able to speak, and congled incessantly. I thought I was going into quick consumption, and I firmly believe that had these symptons continued without relief they would have rendered me an easy victim. When in this condition, I commenced the use of Sanford's Ramcal. Crag from Catarana, very reluctantly. I confess, as I had tried all the advertised remedies without benefit. The first dose of this wonderful medicine gave me the greatest relief. It is hardly possible for one whose head aches, eyes ache, who can scarcely articulated distinctly on account of the choking accumulations in his throat, to realize how much relief to talined from the first application of Sanford's Ramcal Cure. Under its influence, both internal and external. I rapidly recovered, and by an occasional use of the remedy stace, have been entirely free from Catarah, for the first time in twelve years. Respectfully yours.

COMMERCIAL.

CAIRO, ILL., MONDAY EVENING, I June 24, 1878.

Since last Thursday business has undergone no change worthy of note. The same monotonous quietude that has been characteristic in all branches for the past month still exists, and when a change for the better will take place, we are not willing to predict. It is certain, however, that when a change does come it must be for the better, at least so far as the grain market is concerned, for present prices are at the very bottom-so say leading merchantsand in this belief is found much consolation. The stock of flour, grain and hay is equal to the present demand. No fears need be entertained by shippers when strictly choice grades are in question. Voltaic Plaster! These will find ready sale in the hands of Cairo merchants at all times and at prices fully up to those obtained in any city. Bran and meal are quiet. There is an abundant supply of both of these articles, with a limited demand at prices quoted. Of the produce market there is nothing to say other than has been repeated in the PRICE CURRENT for the past two or three weeks.

Receipts daily by rail and wagon are large, and there is an abundance of everything the word produce implies and prices consequently are low, only the very choicest bringing what our country friends are wont to call a good figure.

The rivers are still falling. There has been no change in rates of freight by steamboat, to the south, since the last issue of the PRICES-CURRENT, though one may come at any time, the lively competition that has existed between Cincinnati and St. Louis lines for some time past having somewhat subsided.

THE MARKET. 1-0 Oer friends should bear in mind that the prices here given are only for sales from first hands in round lots. In filling

orders and for broken lots it is necessary to charge an advance upon these figures. MEAL.—This market is well supplied, the mills of the city having an abundant stock, which is offered at \$2 10 with few

takers. Country meal is selling at \$2. Sales reported were: 100 bbls country, kiln dried, \$2: 100 bble country, kiln dried, \$2 BRAN-No sales of bran were reported. though we know of a few small lots that were disposed of at 65c per sack; car-load

lots in sacks will not command more than 60c. The mills are offering their article at

BUTTER-Strictly gilt-edge butter is scarce and in good demand. Common is plenty and dull sale. Choice, for table use, will bring from 15 to 15c. The sales noted were: 3 tubs Northern, 15c; 2 tubs Southern Illinois, 1212@14c; 10 packages Southern Illinois, 8ec 10c.

FLOUR .- This market remains quiet but firm at prices quoted. Receipts have been light, but there is a sufficient supply, with the exception of strictly choice grades, fully equal to the demand. Of strictly choice brands there is a scarcity and a fair de-

mand. We note the following sales: 350 bbls. Various Grades on orders......\$3 50@5 00

100 bbls. Various Grades on 100 bbls, Choice Family..... 50 bbls. Choice Family..... 50 bbls. Fancy Patent

HAY .- Good hay is scarce with a fair demand. The receipts have been light of all grades, but of common and mixed there is plenty. We note the sale of 1 car damaged mixed at \$6 00; 1 car choice Timothy at \$9 00; 1 car mixed at \$8 00; 1 car

choice Timothy at \$9 00. CORN.-There is very little corn coming. The demand for choice white for milling purposes is good, and the merchants find difficulty in getting enough to fill their orders-all that arrives being of an inferior quality. We note the following sales: 2 cars white, in bulk, 39c; I car white, in bulk, 40c; 2 cars white, in sacks, 46c; 1 car

white in bulk, 39c. OATS.—There is very little of this grain arriving, and the supply is light. There is not a very pressing demand, but small shipments will find ready sale. We note sales of 1 car mixed, in sacks, 29½c; 1 car mixed, in sacks, 28c:

Mn. Editon: Having read in you, paper the reports of the remarkable cures of catarth, I sm induced to tell what I know about catarth, I sm induced to tell what I know about catarth, and I fancy the "snuff" and "inhaling tube" makers—nere dollar grabbers—would be glad if they could emblazon a similar cure in the papers. For twenty years I have suffered with catarth. The nasal passages became completely closed. Snuff, dust, ashes, Inhaling tubes and sticks would not work, though at intervals I would snuff up the so-called catarth snuff until I became a valuable tester for such medicines. I gradually grew werse, and no one can know how much I suffered or what a miserable being was. My head ached over my eyes so that I was confined to my bed for many successive days, suffering the most linense pain, which it one time lasted for 168 nours. All sense of taste and smell gone, sight and hearing gone, nervous system shattered and constitution broken, and I was hawking and spitting sevencing this of the time. I prayed for death to relieve me of my suferings. A favorable natice in your paper of Dr. Sage's Catarrh Remedy induced me to purchase a package and use it with Dr. Sage's nasal douche, which applies the remedy by hydrostatic pressure, he only way compatible with common sense. Well Mr. Editor, it did not cure me in three fourths of a second, nor in one nour o, houth, but in less then eight minutes I was relieved and in three months cured and have remained so for over 16 months. While using the Catarrh Remedy I used in less then eight minutes I was relieved and in three months cured and have remained so for over 16 months. While using the Catarrh Remedy I used Dr. Pierce's Golden Medical Discovery to purify my blood and strengthen my stomach. I also kept my liver active and bowels regular by the use of his Pleasant Purgative rellets. If my experience will induce other sufferers to seek the same means of relief, this letter will have answered its purpose.
Yours truly, S. D. RENNICK.

GOLDEN MEDICAL DISCOVERY Is alterative, or blood-cleansing.

GOLDEN MEDICAL DISCOVERY Is Pectoral.

GOLDEN MEDICAL DISCOVERY Is a Cholagogue, or Liver Stimulant.

GOLDEN MEDICAL DISCOVERY Is tonic.

GOLDEN MEDICAL DISCOVERY By reason of its alterative properties cures diseases of the blood and skin, as scrofula or king's evil; tumors; ulcers, or old sore; blotches; pimples and cruptions. By virtue of its pecforal properties it cures broughtal, throat and ining affections; inciplent con imption; lingering coughs and chronic laryngitis. Its cholagogue qualities render it an unequaled remedy for billiousness, torpid liver, or "liver complaint;" and its tonic properties make it equally efficacious in curing indigestion, loss of appetite and dyspepsia.

Where the skin i sallow and covered with blotches and pimples, or water there are scrofulous after tions and swellings, a few bottles of Golden Medical Discovery will effect an entire cure. If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills aiternated with hot flushes, low spirits and gloomy forebodings, irregular appetite and tongne coated, you are suffering from torpid liver or bilionsness. In many cases of dver complaint only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the fiver strengthened and healthy.
